

# VOGUEX FASHION RECOMMENDER

**VogueX** is a fashion recommender built for all your fashion needs!

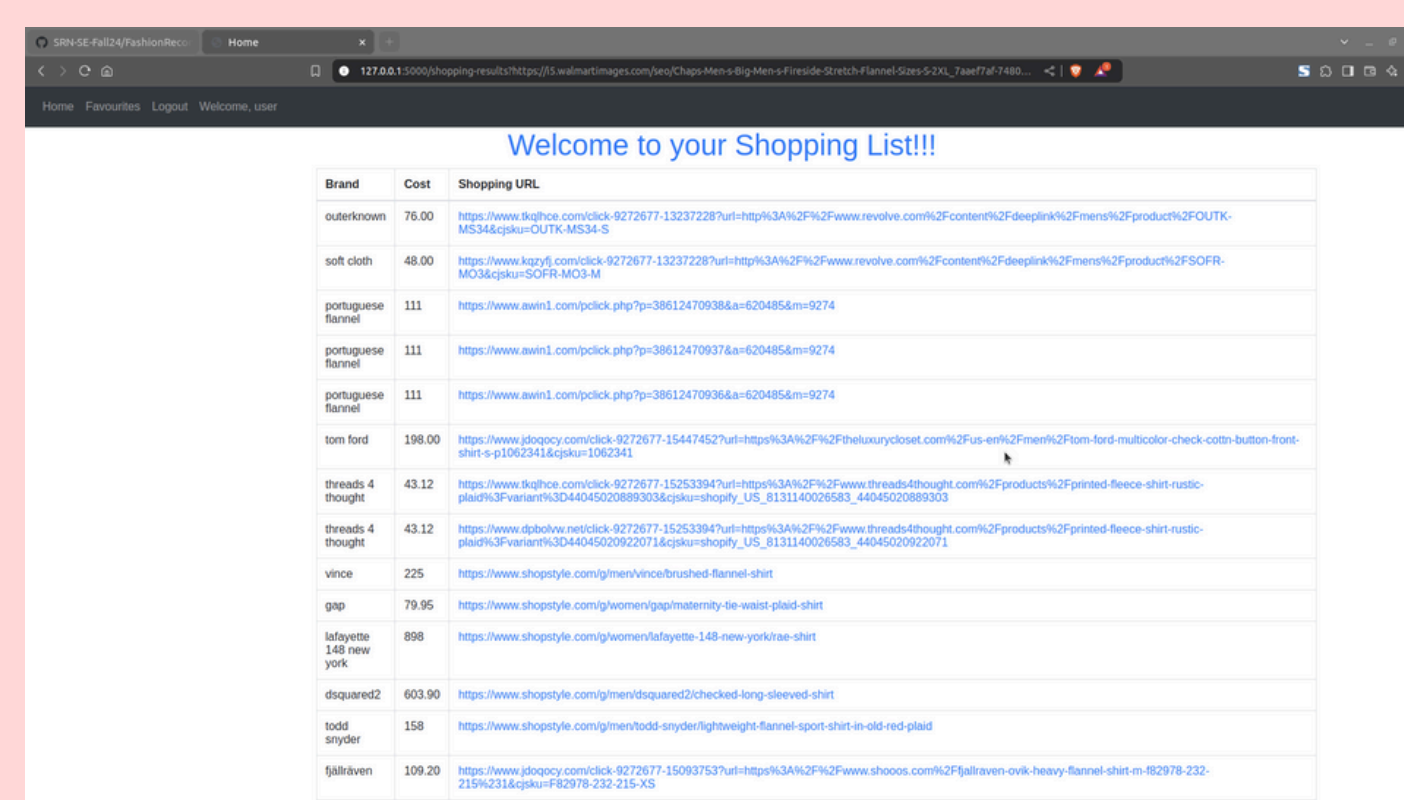

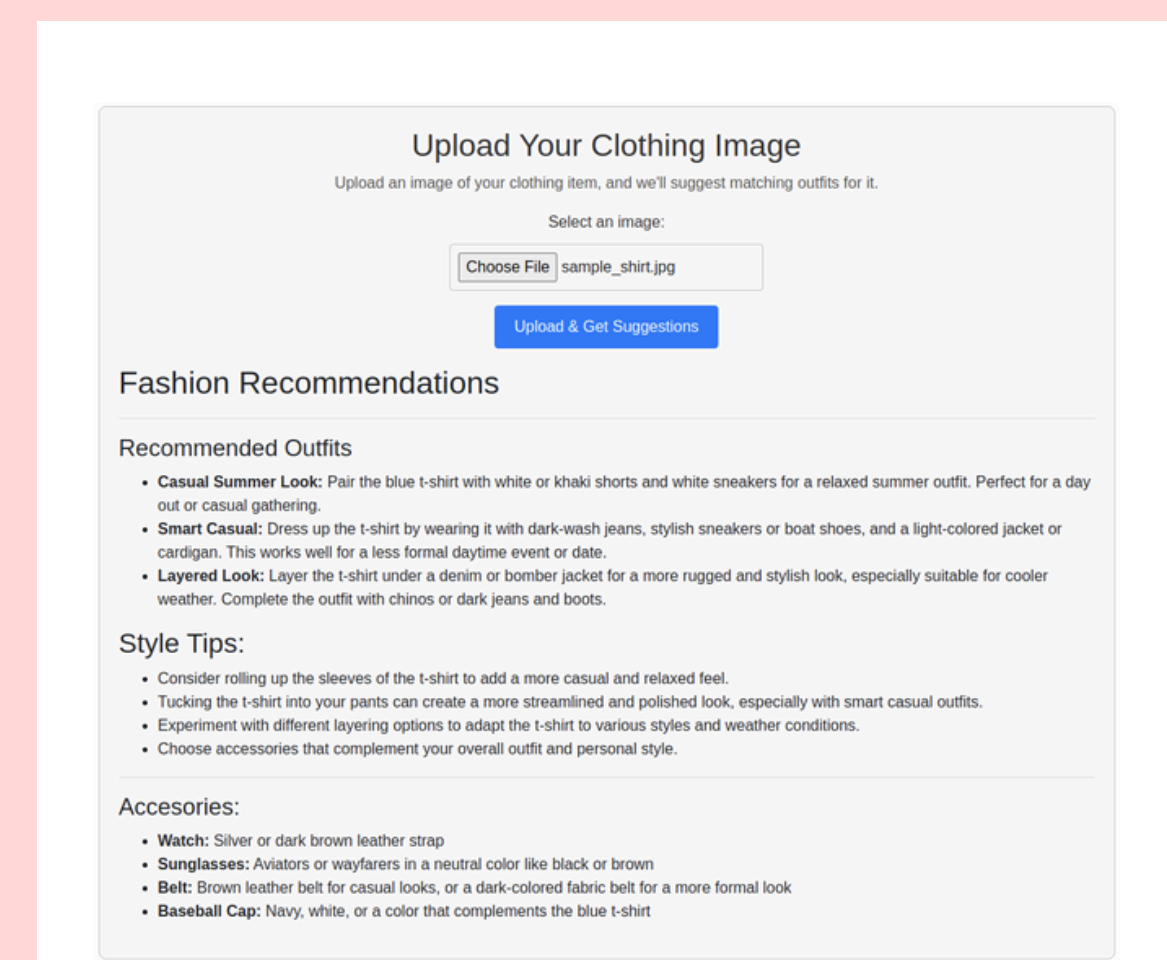

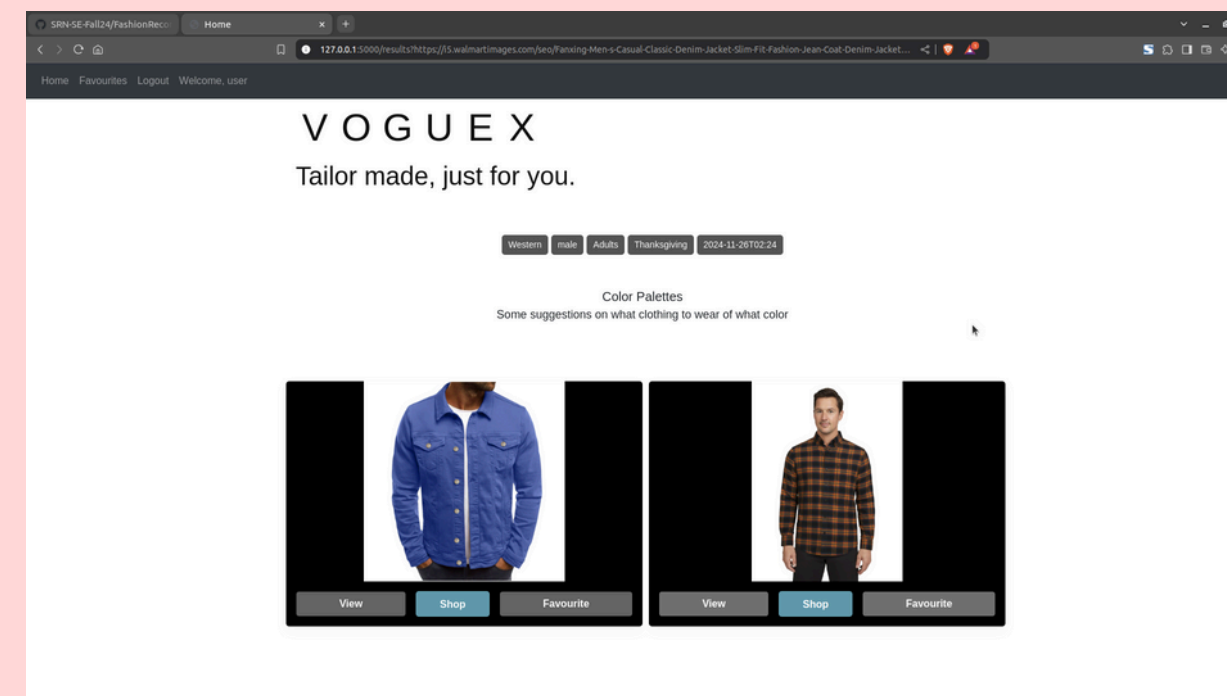

If you've ever struggled to figure out what to wear, **VogueX** has got your back!

It will consider your style, age, culture, occasion, and even the weather to make sure you're dressed to impress.

Find something you like and want now? **VogueX** will link you straight to the shop to buy it for yourself!

## NEW FEATURES INTRODUCED:

- **Color Palette Suggestions:** Added culturally inspired and occasion-based color recommendations, powered by the Gemini API, for a more vibrant and meaningful fashion experience.
- **Image-Based Styling:** Snap it, upload it, and let VogueX do the magic! Now you can upload photos of your clothes to get personalized styling tips and outfit matches.
- **Accessory Recommendations:** Get tailored suggestions for umbrellas, coats, glasses, and more to complete your look!
- **Robust Search Filters:** Easily browse our vast fashion collection by applying our easy to use filters and search by things such as occasion and culture
- **Sign in with Google:** Have a safe and secure login with Google's SSO and be able to keep your favorite looks ready for the next time you want them!

test coverage!

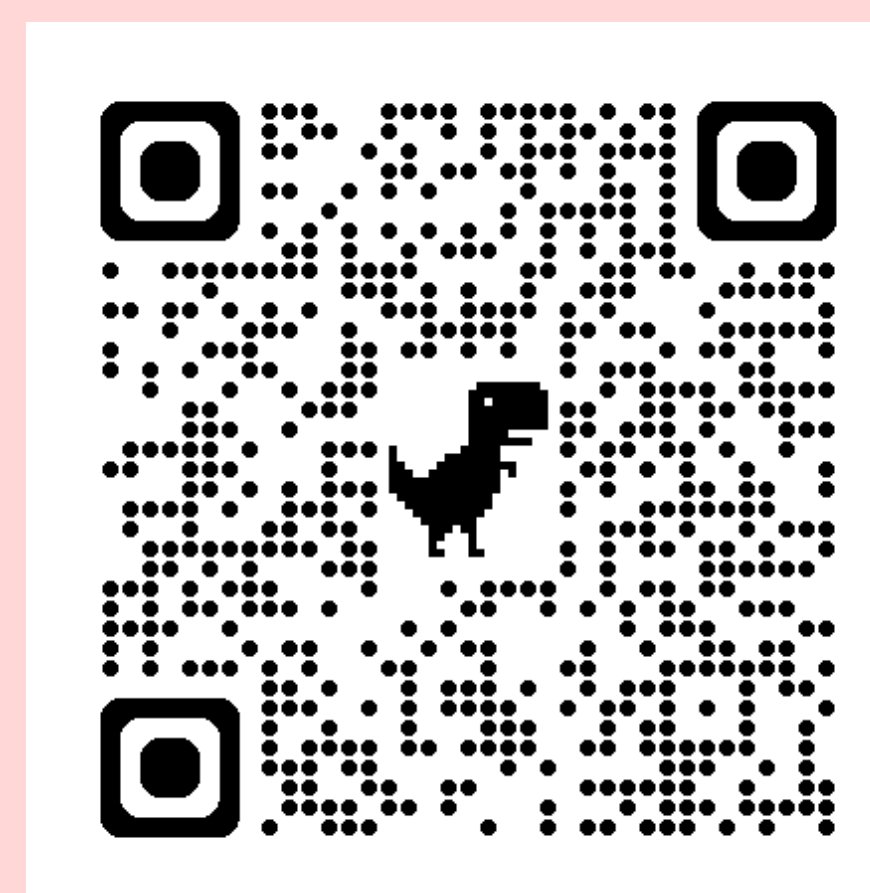

## FUTURE IMPLEMENTATION:

- Users will be able to share their innovations and favorite outfits on **popular social media platforms** like Facebook, Instagram, and Telegram.
- The shopping list will be enhanced with **filters to sort clothes by color, size, price, and more** for a more intuitive shopping experience.
- Outfit recommendations will expand to **include mood, weather, color scheme, and dress theme** for more personalized suggestions.
